GUERRILLA WARFARE AND THE 2020 ELECTION

Preface: First off, I want to remind everyone that Bill Gates opened up a real can of worms when he helped to “invent” the Internet with his desire to give everybody a voice in America.

Little did he realize that he changed the entire method in which Americans now get their news.

Gone are the days of people blindly taking the Nightly News from Chet Huntley and David Brinkley as gospel.

The Mass Media has been blindsided by the concept of “Internet Newsletters” and are going insane that they no longer hold the power of persuasion that they once held over a captive

and *ill-informed* populace.

We here at LawrenceKlepinger.com are trying to do our small part in helping to give Americans real “news” that they can *actually use* to help set America back on the road to economic and social success.

THREE GUERRILLA WARFARE TACTICS

It is time to wake up. The Democrats have a *history* of rigging elections, trashing Republican ballots, stuffing ballot boxes, etc. Look at Chicago and you will know what I am talking about.

Had it not been for Mayor Daley digging up an extra 100,000 votes for JFK, Nixon would have won the 1960 Presidential Election.

With that context in mind, I would like to put forth three guerrilla tactics that everybody, who reads this Newsletter, is actually capable of doing.

TACTIC # 1 – IF YOU ARE GOING TO VOTE ABSENTEE

I vote absentee from here in Japan. The state that I have my ballot sent from is California. On the absentee ballot envelope, the *party* to which the voter belongs, is supposed to be printed on the *outside* of the envelope.

Unless this has changed, that is how it will be handled in 2020. Please check to see if this is the same situation in your state of voting preference.

The majority of government *employees* are registered Democrats and *hate* President Trump.

Therefore, the first tactic is to *not* write Republican on the outside of the absentee ballot envelope. Write that you are either Independent or Democrat – if you are voting for President Trump.

This is not illegal. You are allowed to change your party if you wish, as long as it is done

before election time.

The reason for saying you are an Independent or a Democrat is obvious.

Your ballot is likely to be counted and not “lost” in the voting process. Have no fear. Both the Republican candidates and Democratic candidates will appear on the ballot.

Why they have people state their party affiliation is beyond me, but that is the way it was done in California in 2016, and I am assuming that they will do it that way again in 2020.

I predict that there will be massive voter fraud in 2020 – so this is one way in which you can somewhat guarantee that your ballot will be counted.

You would be shocked at how Republican ballots seem to get lost, or simply disappear, on their way to the counting centers.

TACTIC # 2 – COLD CALLS FROM DEMOCRATS

This is an extremely useful tactic – and will help to slow down the cold callers for Democrats.

If you get a cold call from *any* Democratic representative, whatever you do, *don't* get angry and slam down the receiver.

Instead, be kind, courteous and *agree* with everything they have to say about their candidate. Be cordial, engage them in a friendly manner, and *string them along* as far as possible.

The more time you are on the phone the less time they have to call other people.

This is one of the easiest ways to “help” Republican candidates in your district – not just President Trump.

And when the caller gets to the “donation pitch” just politely say that you cannot afford to donate

any money, but you are certain to vote for that person.

Then make an excuse that you have to go and politely hang up.

TACTIC # 3 – GET ON THEIR MAILING LIST

BUT, before you hang up, ask to be put on their mailing list. This will consume more of their time and energy, use up their political brochures, and also cost them in additional postage.

Then, when you get their mailings, just throw them in the trash and smile to yourself at doing your civic duty to help elect responsible Republicans to public office!

These may sound like very insignificant actions to take, but done on a wide scale can make a huge difference.

Guerrilla Warfare is the tactic of the future. If time permits, I suggest that you read, *The Art of*

War by Sun-Tzu. It is rumored that President Donald Trump has a copy of it on his nightstand.

FUTURE PREDICTION

I can see the day coming, if it is not here already, that leaders of other countries, will actively endorse our American presidential candidates.

Not only will this help to swing the voting preferences of Americans - but also, other country leaders will start to do this to curry favor in the hopes that the person they are backing will grant them “most favored status” in the future, if that person wins the election.

We already have Russian interference. This is *not* what I am talking about. I am referring to *direct and open endorsement* of a presidential candidate by leaders of other countries.

Imagine, if the President of Germany or France, the Prime Minister of England or Japan, for

instance, start to run political advertisements in their own country – for an American presidential candidate of their choice!

It would change the whole dynamic of American elections.

I predict that this *will* happen in the near future.

To my knowledge there are no laws against this kind of political advertising.

We live in interesting times.

That is it for now.

Take care, stay safe and keep thinking positive. And don't forget to vote on November 3, 2020.

Until next time, Sayonara from Kobe, Japan!
