**PREFACE:** First off, my apologies for sending out another Newsletter this week but things have really been going nuts recently, so I thought it best to try to update readers on some news that might have been overlooked.

The videos that I am posting today are relevant and somewhat troubling, to say the least. I am not sure I agree with *everything* that the people are saying - but there certainly seems to be a common thread between them. I am still having a problem “connecting the dots” but it seems pretty clear that a scenario is starting to take place.

In a recent Newsletter, we predicted that May 1<sup>st</sup> would be the time when things would turn around. Seems we were pretty close on that call.

On another note, the statement that the Democrats would do anything to get rid of President Trump, seems to have also taken place.

Their refusal to sign on to the next wave of money for small businesses appears to be part of their continuous plan to ruin Trump’s Presidency – even at the risk of breaking the backbone of America’s small businesses.

Another, prediction was that China has this demented desire to rule the World.

This also seems to be taking place, as I write.

However, there is still the naïve Public/Mass Media, that is taking China “at its word” about their testing – and not *developing* - biological weapons grade viruses, to use in biological warfare.

Having lived and worked in China, I can categorically state that to believe what China says is a *grave* mistake.

China lies to everybody – all the time. And when I say China, I mean the ***Chinese Communist Party***. Being a student of Sun-Tzu, I quote one of his most famous maxims regarding the *Art of War*:

“Deception is nine/tenths of the battle.”

The Chinese Communists have one goal in mind – control the World by preserving the Communist Party, regardless of who gets killed.

Mao once stated:

“China can move three steps forward, and fall back two, and still win any war.” (He was referring to China’s massive population).

To trust China’s word on anything is tantamount to national suicide.

Let the buyer beware!

I apologize if some are offended but that is the nature of freedom of speech. Sometimes the truth hurts so much that we tend to shield our eyes and pretend that we don’t actually see what is right before us.

The following videos will speak for themselves.

One final thought. Ask yourself why the Mass Media, in conjunction with the Democrats and China, do *not* broadcast any of these events.

Also, note how long these related events have been going on with the complete knowledge of so many people in the *upper echelons* of our *elite world society*.

When you see what money, combined with seemingly

unchecked power, can really do, it should give you great cause for concern.

I realize this is a sizable amount of articles/videos, but they are very worthwhile - and shed insights that the Mass Media simply refuse to talk about - and hope you will never see.

We here at LawrenceKlepinger.com are trying our best to keep all of our readers informed as to what the situation in this Global Affront really is.

We do not ascribe to kowtowing to the Powers that Be, that are trying to drag us into their dream of a One World Order - under the thumb of a *private power elite* - that has *never* been elected to any office, but instead, seek unlimited power for themselves and their bandit ilk.

PLEASE take some time, ***while you are still in unconstitutional lockdown***, and watch them all.

I *guarantee* you will be awakened to what is really going on with not only this “pandemic” (which it is NOT) and also the concept of permanent vaccinations and the transformation of all countries into the essence of George Orwell’s ***1984***.

Be forewarned! Please allow time for videos to download.
