For All Informed Sovereign Individuals

PREFACE: We here at our Website have decided that everyone has had enough finger-pointing, childish antics and other extraneous actions regarding the Wuhan Virus – and are leaving it in the rearview mirror where it belongs.

That said, we want to forge ahead with a few ideas and positive concepts regarding the future of America and even that of the World.

ON WITH THE SHOW!

We have heard nothing but ignorant, negative accusations in the last two months against everything and everybody.

In truth, we may never know what really transpired with China and what it is really doing in their Biological Chemical Laboratories, so there is probably nothing we can actually do about the whole situation anyway.

So, let's look at where we are now and where we are going in the future.

SOME LESSONS LEARNED

We now have learned that the whole world can actually be shut down by a Global Hoax, perpetuated by fear, lies and deceit – fostered by flimsy health information that was totally defective from the very start.

So now we know not to fall for that hoax again. YES, people died. Death is part of Life.

But to shut down the whole World was ludicrous from the start – but the “powers that be” – managed to do it anyway. We have no idea how this was accomplished. It was completely unnecessary – and, in truth, totally nuts.

Let’s learn from this lesson – that this type of Global Hoax will never be allowed to happen again. You would think that, *We the People*, would finally learn this lesson, but apparently not. A few hoaxes from the past prove this point:

9/11 ????

I could keep going, but you start to get the point.

As Sovereign Individuals, we are committed to think for ourselves.

“Social Distancing” is another fallacy. What better way to divide and conquer – and control the population growth of the world, all at the same time!

“Wash your hands.” My mother taught me this when I was a mere child. The Sovereign Individual does not need the Government to tell us this.

“Lock Down” is another false intrusion on our freedom of movement. In fact, they now have proof that this did not work at all.

Again, I could go on – but we are NOT going to go any further with this conjured up nonsense.

I will leave the readers with these final two thoughts.

Trump was chastised for NOT listening to the scientists – at first. Then, when he did listen to them, he got very misleading and incorrect information. And then the Democrats and the Media blamed Trump for *listening* to the scientists. As usual, Trump gets blasted – either way he goes.

The second thing to think about is this: How many people do you know *personally*, that have died from the Wuhan Virus? This may sound like a cruel question to ask, but it is a sensible one.

As a side note, Japan was on *voluntary lockdown* – although there are only approximately 750 deaths reported so far, due to the Wuhan Virus.

Japan has a population of 123 MILLION people. Do the math and you will see how idiotic it was to lock down the World's Number Three Economy for this amount of deaths. Completely insane!

With those two thoughts in mind, remember that the REAL flu season will start around August and go until the end of the year. Now, tie in another “resurgence” of the Wuhan Virus – and you have double panic and triple the fear.

SOLUTION: Eat healthy food, drink moderately, get plenty of exercise and enough of rest, allow your body to develop its own immune system – and remember, this coming flu season MORE people will die.

They ALWAYS do. They call it the Cycle of Life.

When this happens later this year, don’t panic – just use common sense and you will be fine.

WHAT TO DO IN THE FUTURE

Let’s admit it – if you follow the money you will eventually end up at the source of all good – and evil.

The Trump Derangement Syndrome has gone completely berserk. The Democrats of today would make the Democrats of yesteryear roll over in their graves.

FDR, Truman, Hubert Humphrey, Adlai Stevenson, Frank Church, Henry “Scoop” Jackson, JFK would all be laughed out of the party of AOC today.

The Democrats are *totally* committed to destroying Trump – at *any* cost – and that means to tank the economy *and* America – in any way possible.

However, there are ways to fight back.

If you own stocks, the power elite wants you to sell into the downturn. In other words sell into the FEAR, and lose money.

Then they come in and scoop up the equities at pennies on the dollar. They are doing that as I write.

STOCK SOLUTION: If you own stocks, and you see them continually going down, learn how to write covered calls. It is a very easy, conservative concept and can keep you from selling at the wrong time, plus, generate weekly/monthly income while the stock price is in the doldrums.

Check with friends, or your broker, on how to do this. It is not difficult and will save you a lot of money in the long run.

MORTGAGE SOLUTION: If you are having trouble making mortgage payments on your home, check with your bank or lender and see if you are eligible for a reverse mortgage. I have mentioned this before, but handled properly, can help people save their homes, without going into bankruptcy.

EXTRA “STUFF” SOLUTION: If you own extra property, both personal or real, consider selling now, before any more harm is done to the economy. If it really does tank big-time (which, by the way, I do not think will happen), it would be better to unload all the non-essential things you now own. Later might be too late.

The more you own, the more you are owned.

EXTRA MONEY UNDER THE MATTRESS: It is said that the best insurance, is to have six months earnings saved in cash – under your mattress. In other words, have at least this amount on hand, not in the bank.

THREE PERSONAL PREDICTIONS:

- 1.** The American Economy will come back – and will be around 7% unemployment by Election Day, November 3rd 2020.
- 2.** There will be a glut of used cars for sale in the months to come. If you need a car, now might be the time to start looking around.
- 3.** There will be housing problems – with some people being foreclosed on their mortgages. I know this sounds cruel and heartless, but if you have any extra cash, now might be the time to keep your eyes peeled for real estate bargains.

A FEW POLITICAL PREDICTIONS

- 1.** I have mentioned this before, so I won't belabor the point. If the Democrats want to remain a viable party, they will have to go with Michelle Obama as their standard bearer. If not, then Trump will beat *anybody* they find to represent their party. If that is the case, the Democrats will go the way of the Whigs.
- 2.** It is not a given that the Republicans will win back the House – nor keep the Senate OR the White

House. However, if they do, then the following should soon come to pass:

A. Trump will squeeze the won-ton soup out of China.

B. America will finally LEARN that they can produce anything and everything that it needs – without sending all of our manufacturing overseas.

C. If companies DO send their manufacturing out of the Country – look for Trump to “trump” them with excruciating tariffs.

D. As predicted, almost four years ago, if Trump serves two terms, he will get to appoint FOUR Supreme Court Justices. Two are already there. The next two will be Ginsburg and Clarence Thomas. And this will be truly the crowning glory of President Trump – a Legacy that will live on for the next Half Century!

E. Of the ones who attempted to overthrow Trump, Obama will get a pass, Comey will get off scott free, Brennan will maybe get house arrest as will Clapper. These are the most severe punishments. In other words, they will get away with it. And Hillary, will be

safe for the rest of her life. However, lesser players *might* have to serve some hard time.

NOW, SOMETHING TO REALLY PONDER

Finally, as always, I have to thank readers for their constant input and continued help. Without all your help, we would not be able to keep this Website going.

The following *Web of Incest* was sent to me by an avowed Sovereign Individual of the highest degree. He is a Military Veteran and a true American.

As stated, in our last Newsletter, we have been advised not to print the names of people, for legal concerns, but I *can* acknowledge that a reader sent this to me.
