ON WITH THE SHOW!

For a long time, we have been trying to figure out what was going on with relation to China and its secret inner-workings.

As many of you know, my wife and I lived and taught in the PRC (Peoples Republic of China) for one year. What we witnessed there, the graft, the corruption, the bully tactics, the distrust of each other, student spies in our classrooms (Communist Trainees), threats of bodily harm and much worse, we saw first hand.

Most news that comes out of Mainland China is censored or simply not reported to the outside world.

Thanks to a very well connected past student of mine, who sent me this very disturbing information, out of China – that is *not* supposed to be circulated to the outside world, I reprint the total of the article, as it was passed on to me.

Please excuse the format. I wanted the readers to see exactly how it was sent to me.

It is a real eye-opener:

CHINA NEWS

Breaking News

Sources from China News_Month

Premier Li Keqiang submitted his resignation letter to President Xi Jinping on June 15 and it was apparently accepted. The reason for this is "physical exhaustion and inability to continue working," he said.

A number of problems have emerged within China.

1. Cracks in the Three Gorges Dam are spreading, threatening to break. If the dam breaks, 600 million people downstream will be affected.

2. locusts have attacked northern China, causing severe damage to crops.

3. 30,000 people in Beijing are quarantined due to a novel coronavirus second-wave pandemic.

* The People's Liberation Army and armed police are engaged in maintaining security in Beijing.

*The primary and secondary schools and universities in Beijing were sealed off.

* Beijing hospitals, the 301 People's Liberation Army Hospital, the Armed Police Hospital, and other hospitals are also full of patients.

*Hotels in Beijing are full of isolated patients.

*The crematoriums in Beijing are in full operation.

4. an epidemic of corona infection has occurred in all provinces of mainland China.

What is astounding is that *none* of this news is being aired to the outside world.

If only the information on the Three Gorges Dam is true, China is facing an enormous tragedy – and seemingly can do nothing to stop the dam from simply giving way under such enormous water pressure.

I remember when this project was started that I thought it was insane. For one thing, we witnessed the extent of architectural construction in China. To put it mildly, it was a total joke.

In our “new” school, which went by the name of University of Hertfordshire (England), under the auspices of Fuzhou University, buildings were routinely falling apart, glass literally falling out of the windows during class, floors that were so badly laid that if you stood up from your desk chair, it would roll to the adjoining wall. When we were there our office floor actually sank a total of 6 inches! That is *not* a misprint. A few building actually toppled completely over.

Now, bear in mind, the horrific amount of crime and corruption in the Chinese construction industry, and

you can imagine how the Three Gorges Dam has been pieced together.

It is astounding to think what will happen when it finally gives way – and I guarantee that will happen, sooner than later.

The other information regarding the rapid spread of the Wuhan Virus has completely backfired on the Communist Chinese Government.

People, *Chinese* people, are dying by the thousands, but not a whisper of this to the outside world.

It is now abundantly clear as to why the Wuhan Virus was intentionally unleashed on the World.

The Communists attempted to *divert attention* from their own misdeeds – and instead – infect the whole world. That way they would not have the eyes of the international community solely on them.

But the distraction went horribly awry – and they are now dealing with a *real* pandemic of their own making.

The rest of the article speaks for itself.

What is very interesting is the tie-up of Joe Biden's son in all of this – and the hundreds of millions of dollars he was given by the Communist Chinese.

Was this hush money? Do the Bidens know something that the rest of the world does not know?

Only time will tell.

It is now very obvious that Communist China is in very deep trouble – and it does not want any of this information out in any way, shape or form.

Please let me know if you hear about any of these stories in the Main Stream Media. However, I will not be holding my breath.

A DEEP SENSE OF ANGST – THE JFK MEMORANDUM

We have been having a few discussions as to the upcoming election, and some of us are extremely worried about the actual implementation of the JFK Memorandum.

If you are not aware of what this refers to, it is the actual order, to set in motion, the assassination of President Donald Trump.

I know that sounds harsh, and few news outlets will even broach the subject, but consider these facts:

Four American Presidents have been assassinated.

Who assassinated Lincoln? John Wilkes Booth.
Who assassinated JFK? Lee Harvey Oswald (or so we are lead to believe).

But who assassinated James A. Garfield or William McKinley?

Few people know their names – and therein lies the worry.

Half the world hates Donald Trump for various reasons. The other half love him.

Imagine, if an assassin were to take out President Trump he would be instantly world famous – and celebrated in many countries throughout the world. Believe me, I am not the only one who realizes this. It is talked about in hushed tones – around the globe.

And for good reason.

President Trump cannot be bought – like other past presidents. He simply does not need – or want – the money.

When he leaves the White House – if he is fortunate enough to do so – he will have *lost* money.

Donald Trump is dedicating his life to draining the swamp – and that swamp is *Worldwide*. It is not just in America.

Consider the countries that would like to see him “out of the way”: China, Iran, Russia, North Korea, Saudi Arabia, the Democratic Party, The Deep State, many of the Islamic countries of the Middle East, and various other criminal miscreants.

It will take tremendous courage, on President Trump’s part, to go to the Tulsa Rally this coming weekend.

We ask that all who support President Trump pray for his safety – and that of his family, friends and supporters.

HAPPY FATHER'S DAY!

Here is wishing all the fathers out there a very Happy Father's Day!

We realize that many fathers – and mothers – have lost their jobs in this Chinese Plandemic, and our hearts go out to all of you.

Please keep thinking positive. With the reelection of President Donald Trump, the economy – and the world – will improve dramatically!

Have a Happy Father's Day!

That is it for now. Take care, stay safe and keep thinking positive.

Until next time, Sayonara from Kobe, Japan!
