PREFACE: We had an emergency teleconference regarding this Newsletter today. In truth, we wanted to dispense of the COVID-19 coverage, but this video was so *riveting* that we decided to send it out for our readers to watch and fully digest.

It was sent to me by a lady reader and is fully authenticated. She has helped out before with very timely information, all of which has been true.

We feel it is imperative that you take one hour to watch this video regarding what is really going on with reference to the Wuhan virus – and how the deaths are reported, and the money involved.

We promised that we were not going to delve into this story any longer – but this video convinced us to break our word – it is *that* revealing.

Please watch it to the very end. Heartbreaking does not describe the final outcome.

The brief response, is by an Army Medic and Vietnam Veteran, who confirms what the video was saying.

Amazing readers are the heart and soul of this Newsletter. Without your continual help and support, our job would be much harder.

Thanks again!

ON WITH THE SHOW!

THE HORRIBLE MANIPULATION OF THE COVID-19 NUMBERS

If you do nothing else over this Fourth of July weekend, please take the time to watch this video.

[The Riveting Truth About Covid-19](#)

This is a response to the video by a Vietnam Veteran Medic, in his own words, and his own font/type.

I have seen other videos of her, back from the beginning of the Covid fiasco.

She makes too much sense, not just a lot of sense!

Everything medical she said was 100% true! re: med combos, efficacy of other treatments, doing things that do not appear to be medically needed, etc.

Placing a person on a ventilator always has been an absolute last ditch effort! NEVER a *right away* treatment.

Why? Because most people will not survive a

long-term intubation, without serious complications!

Approximately 80% of the patients that we took into an ER, with a endo-tracheal tube that we put in out in the field, was extubated in the ER, and the problem we originally tubed them for was corrected, either by surgery (neck trauma), or other treatments. We did not have (medicines) for use in the ambulances.

IMHO: NOT just based on this video, but many other sources as well: The State, via edicts from the Governor, and his minions in the State and Local Health Departments, saw this as an *opportunity* to fund their failing hospitals by the deliberate misdiagnosing of non-Covid patients, and then purposely trying to infect more folks in the process.

The nursing home fiasco, Cuomo basically ordered in a roundabout way, to get excess remuneration from the Feds by spreading the disease as far as they could, is a perfect example of this fraud.

From different things I have been told, all

anecdotal in nature, that if you admit a Covid patient you receive a much larger reimbursement from Medicare, and depending on where you are in the US, if you place them on a ventilator you get an additional fee of between 9 to 29 grand for doing so.

Then, if they die in your hospital, you can also charge the feds an additional "extra bio-hazard" treatment and hospital room clean-up fee, as well!

Basically, every patient with Covid-19 becomes a *money factory*.

For the hospitals that were on the financial edge, before Covid-19 came on the scene, this Communist Bio-weapon became the monetary *savior* for these hospitals.

MOST medical staff caught in a situation like this will keep their mouths shut, as they are fearful for their jobs, and they are right to be scared.

Especially the residents, whose entire medical careers depend on how they do during their

residency.

And remember this; hospitals are businesses, and they are all about the bottom line just like every other business in the world. It USED to be that NY Hospitals (the whole state) were non-profit - BY LAW! They aren't that way any more.

Hope this info helps you. She is absolutely correct in everything she has to say.

As our readers know by now, we here at LawrenceKlepinger.com, have never really believed all the Mass Media “News” regarding the Wuhan Virus.

This Chinese Communist Biological Weapon was purposely set upon the world.

This whole “non-violent” military assault was perfectly designed and executed in precise military fashion.

It was *not* an accident.

The BBC article below was sent to me, just this morning, by the same reader, who wrote the response to the video above.

I cannot verify if it is true or photo-shopped. But whatever the case is, it is extremely ironic. Consider these points:

The article is purportedly from the BBC – British Broadcasting Corporation. It is my understanding that this news media is either controlled by, or financially subsidized, by the British Government.

The British Government, whether it outwardly admits it or not, is directly or indirectly, beholden to the Queen of England – and the Royal Family.

Prince Andrew is alleged to have made a number of trips to Jeffery Epstein’s Fantasy Island on the “Lolita Flight” with other high-ranking royal members, politicians, and high-end corporate executives, along with dignitaries and diplomats from around the WORLD.

Remember what happened to Princess Diana?

Put all those “coincidences” together and you have the makings of Ghislaine Maxwell either committing “suicide” – or dying from a very convenient case of COVID-19.

PLEASE NOTE THE DATE, 11 JULY 2020!

The image is a screenshot of a BBC News website article. At the top, the BBC logo is on the left, and navigation links for 'Sign in', 'News', 'Sport', 'Weather', 'iPlayer', 'Sounds', and 'More' are on the right. Below this is a red header with the word 'NEWS' in white. Underneath the header is a navigation bar with links for 'Home', 'UK', 'World', 'Business', 'Politics', 'Tech', 'Science', 'Health', 'Family & Education', and 'Entertainment'. A secondary navigation bar lists regional options: 'UK', 'England', 'N. Ireland', 'Scotland', 'Alba', 'Wales', 'Cymru', and 'Local News'. The main headline reads 'Ghislaine Maxwell moved to intensive care as Coronavirus symptoms worsen'. The date '11 July 2020' is displayed below the headline, and a 'Coronavirus pandemic' tag is visible. Social media sharing icons for Facebook, YouTube, Twitter, and Email are present, along with a 'Share' button. Below the text is a photograph of Ghislaine Maxwell and a man. At the bottom of the screenshot, a caption reads: 'Former socialite and Epstein associate Ghislaine Maxwell has been moved to intensive care in hospital after her coronavirus symptoms "worsened", the

For all we know she might already be dead.

Interestingly enough, this Twitter Notice was taken down very quickly, but not before an intrepid viewer was able to take a picture directly from his computer. It is nowhere to be found on the Internet.

PREDICTION: Ms. Maxwell will never be allowed to go to trial. The risk is too great to the World Elites involved. They simply will not let it happen.

That is it for now. Take care, stay safe and keep thinking positive.

Until next time, Sayonara from Kobe, Japan!
