SPECIAL NOTE: Today is the 75th Anniversary of the Hiroshima Atomic Bombing.

It is a solemn day here in Japan. May all the souls who died in all of World War Two be remembered on this day of mourning.

Rest In Peace – and may such a tragedy never again take place on this, Our Mother Earth.

In the name of God, may we all finally wake up to the horrors of war – and put an end to it forever.

PREFACE: Once again, we here at LawrenceKlepinger.com want to offer our sincere thanks to all the avid readers who have been sending us some terrific information.

ON WITH THE SHOW!

[Bill Gates - Briefing of the CIA](#)

This first video is something that I had never seen before. Just imagine, Bill Gates giving a briefing to the CIA on certain constructs of how to manipulate the human brain!

Yes, it is an old video, but it takes a long time to build up an empire in which you can actually *control the actions of the Whole World*.

I was stunned when I saw this – considering how Bill Gates is so often referred to with regard to vaccines and his stated desire to control world population growth.

[A Technocracy of World Dominance](#)

This is a slightly long *read* of what is really taking place right under our very noses – quite literally.

When time permits, please read it and become more informed. I know it helped me – a lot.

[A Partial List of Pedophiles – Names and Crimes Committed](#)

Please take the time to read over this list of named pedophiles. It is astounding at some of the accusations – and the punishments.

It is curious that the list begins with Republicans – but, rest assured – the second half is all Democrats.

The reason I include this is because of the mere scope of these child abusers. They are all from the Upper Elites of the *World*, Politicians, Dignitaries, and even Religious Leaders..

And this is just the Tip of the proverbial Iceberg!

Much more is to come. And, bear in mind, that many of these child molesters, in a sense, actually rule the world that We the People live in.

Please also be aware that many of these *criminals* are still receiving some sort of government pension – many times, at a cost to the American Taxpayer.

Also, I looked hard and long at this list but did *not* find the name of Donald J. Trump among them.

No wonder they want to get rid of President Trump by any means possible.

I *guarantee*, this list will shock the living shit out of you!

[It's Just A Mask](#)

If you watch nothing else this upcoming weekend, this video kind of ties it all together. It is amazing the way it is assembled in very simple to understand terms.

This all happened in four months – and not a shot was fired.

[The Witch Doctor Fauci's Theme Song](#)

Dr. Fauci has duped us all into thinking not to think for ourselves.

I had to include this, as a hilarious tribute, to all the pain and suffering that this *little man* has inflicted on the World.

Yes, he put a Spell on Us All!

My apologies, but I did not want to leave you with a sour taste in your mouth with all the disturbing news of the day – thus this funny performance, as a way to smile in the face of constant adversity.

That is it for now. Take care, stay safe and keep thinking positive!

Until next time, Sayonara from Kobe, Japan
