NOTE: The News is moving so fast that we are having a hard time keeping up with it.

Our apologies and hope we are not delving into “Information Overload” but it is imperative that we get this to our readers ASAP.

ON WITH THE SHOW!

[THE GREAT RESET](#)

This is a video that you *must* watch, understand and digest into your Sovereign Individual DNA.

If you value your freedom give this a serious listen.
You might not have another chance to save America.

BEIDAIHE CONFERENCE

BEIDAIHE MEETING

Never heard of this conference before? Don't feel alone. This is another great tip from my past Japanese student, who has an inside lane to information that the Chinese would not like anyone to know about.

These are two of the most revealing videos/articles that you will come across, regarding the inner-workings of the Chinese Communist Party and the stranglehold it has on its own people.

Both sites are overlapping, but chock-full of vital information that almost no Westerners are even vaguely aware of.

Notice the luxury that these Communist Upper Echelon lavish upon themselves – while the common Chinese people are starving to death – as you read.

Take time and note what has been going on since October 1, 1949 – the brutal Communist takeover of Mainland China.

With Relation to What has Apparently Been Agreed Upon at the Most Recent Summit:

- 1) Remove US companies (76 companies) that have expanded into China by October.
- 2) Develop new, powerful nuclear weapons.
- 3) Increase defense spending to 4% of GDP.
- 4) Pro-Chinese countries (Iran, North Korea, African countries) unite and fight against the United States.
- 5) Terminate the relationship with the US. In the future, advanced technology will be developed by China itself.
- 6) Break through the US siege network, attack Taiwan and open it up (after the US presidential election).
- 7) Instruct all Chinese people to prepare for war with the United States (stockpile food and energy).

8) Prepare for a total disconnection with the United States.

Please notice #7, and herein lies one vital fact that China is desperately trying to conceal from its own people. Regular Chinese people are starving to death, thus the command to stockpile food and energy.

President Trump has allowed literally thousands of tons of food to be bought by China to feed its masses.

But that simply will not be enough. China's *non-middle class population* is 1 *BILLION* peasants – and they are starving to death.

That tremendous amount of people equals the total population of America *times three*. America's *total* population is approximately 330 million.

The Chinese Communist Party realizes that it must use total *deception*, on its own population, to divert the Chinese people from revolution.

The most common way to deceive the populace, and unite them together, is to foment hatred on an outside foe – as the problem to all its internal problems.

Taiwan is in the immediate crosshairs. Next, the USA.

Moving along, we'll learn about man's best friend.

The seven adorable puppies below are hot dogs, not hot dogs (food) in most countries.

[KIM-JUNG-UN - DOGS TO BE PUT DOWN](#)

At first, when I heard this news early this morning, I thought it was a joke.

Apparently I was wrong. It seems that under the *deceptive* guise of killing dogs to dispense of any Capitalistic overtones of dog ownership, Kim wants all dogs destroyed that are owned by wealthy North Koreans.

But the real underlying reason is that North Korea is out of food – exactly like China.

Thus, Kim derides the owners of dogs to be following Capitalistic ways as pet owners – and thereby making the owners the scapegoats.

But, in truth, the dogs will be slaughtered and used for food. Please remember that dog meat is considered somewhat of a delicacy. They have a Dog Festival every year – where they drink alcohol and dine – on dog meat.

WHAT IS THE OVERALL MEANING?

In a nutshell, North Korea and China are running out of food.

What country is basically the breadbasket of the world?

The United States of America.

In less than 76 days there will be a Presidential Election in America.

Can you start to see how all this is beginning to fit together? Countries have always been jealous – make that envious – of America.

This is the one chance for the rest of the World to unite against America.

Notice that “Prince” Charles referred to a narrow window – the chance to RESET THE WORLD to their own liking – by bringing America virtually to its knees.

As Sovereign Individuals we must never allow this to happen.

A FEW MORE PREDICTIONS

These predictions are predicated on Biden/Harris actually winning the White House – which I guarantee will never happen.

However, it is the good general who always prepares for a viable exit strategy – just in case.

1. Notice, many of the well-to-do are fleeing the high tax states and going to better places. If Biden

wins, taxes will go through the roof – especially property taxes.

2. If Biden wins, Universal Health Care will be forced on ALL Americans. That means the eventual abolishment of the Veteran's Hospitals throughout the country.

3. Veterans will have their pensions cut.

4. Veterans with PTSD will have their allowances cut by 50%.

5. Vietnam Veterans will be totally disqualified from receiving any benefits whatsoever.

Why only Vietnam Veterans?

Because it was a *racist* war.

6. Reparations from “people of non-color” will be forced to pay higher forms of “costs” in the form of automobile license registrations, income taxes, a plethora of registration/licensing fees, etc.

And it will all be *legal*.

Think this is impossible?

Does a county by the name of Rhodesia come to mind? No? You have forgotten already.

It is now Zimbabwe – and all of the land of the white farmers was confiscated, and given to black people.

Just recently, Zimbabwe has finally realized their mistake, the black populace did not know the techniques of proper farming, and the government has asked the white farmers to come back and reclaim their land – and help feed the people.

So far, the farmers have not heeded the call. They went to other countries, set up farms and are doing just fine where they relocated.

**WAKE UP AMERICA!
THIS IS YOUR LAST CHANCE!**

That is it for now. Take care, stay safe and keep thinking positive.

Until next time, Sayonara from Kobe, Japan!
