**MOST VITAL INFORMATION
THE MEDIA *DOES NOT* WANT YOU TO SEE –
OR BELIEVE!**

**For comments, corrections, suggestions or tips,
please contact [Larry](#).**

**BUT FIRST, IMPORTANT TECHNICAL
NOTES AND COMPUTER USAGE TIPS**

We have had some readers mention that when they scroll down to an article on PDF, click to read or view, then go back, that they have to scroll down the whole Newsletter to get back to where they were.

This is the default procedure for some browsers with PDFs. On Apple computers using the Firefox browser, it returns to the original position, on other browsers it does not. *We have absolutely no control*

over which browsers our viewers use.

On our system, all we do is go to the arrow in the upper LEFT hand corner of the Newsletter, click it and you then return to where you were in the Newsletter.

On the [Books section](#) of [LawrenceKlepinger.com](#), this is a URL page so you automatically return to the exact location you were before you clicked on a link.

Generally accepted webstandards for professionally designed sites recommend NOT having users' windows or tabs open in new windows or tabs when clicking on links as this takes away the users' control of their browsers - **very, very highly discouraged.**

Notable exceptions are shopping sites such as Amazon as they want you to have as many windows/tabs open as possible on their site.

Clicking on any link on most major websites DOES NOT open a link in a new tab or window. Please go ahead and experiment.

LawrenceKlepinger.com prefers **NOT to go against webstandards, particularly when this site is designed with handicapped and blind people in mind.**

It's extremely rare for a site to be error free for handicap accessiblity, but we built this site from the ground up with ALL users in mind, sighted and blind, those with arms and those without arms, and many other considerations. We are error free.

You can check any site here at [WAVE](#) - Web Accessiblity Evaluation Tool to see if they are in compliance with web accessibility requirments. You can also see our Accessibility Statement [here](#).

This icon in the upper-right hand corner of our site is for handicapped people to help navigate the site. Once they are in the PDFs section, their own personal screen reader can take over from there.

When handicapped or blind users navigate and click on this icon, a whole list of options appears to help them navigate the site according to their own needs.

For those readers who are not totally blind and have partial use of at least one arm, may we suggest this:

To open a link in a new tab or window in PDF, simply right click with the mouse, or if you're using a trackpad, find out what the procedure is according to that make and model of computer.

We hope this helps.

PREFACE: We are getting hacking attacks from many areas of the World. In truth, we feel honored that this is happening – because we are just a small Newsletter.

But in truth, the Media/Democrat/Elite/Socialists are determined to kill every Conservative Voice in the World.

They are playing for all the Power in this Presidential Election – and they are willing to sell out America to regain Total Control.

If the Democrats do figure out how to steal this election, from here on in there will be no use in ever voting again!

I ACTUALLY THOUGHT THIS WAS A JOKE!

If you want to actually [SEE](#) insanity in action, and what the Democrats are really trying to do, then Please watch this unbelievable video.

BIDEN AND THE CHINESE CONNECTION

This is so horrifying what is going on right under our collective noses. You will NOT believe this [information](#).

DEMOCRATS HATE AMERICA

And NOW we have the truth – in their [own words](#). If this does not convince you, nothing will!

CHINESE MILITARY SUPERIORITY

China is on the move. If America does not wake up on November 3, 2020, then this truly might be our [last election](#) as a Democratic REPUBLIC!

TRUMP BETTER AT PROTECTING USA

Trump will keep America safe. See what a [relative](#) of Bin Laden actually tells the world!

SUPPORT FOR TAIWAN

[Trump is arming Taiwan](#) for a possible showdown with Mainland Communist China.

CITIZEN TRUMP – DOCUMENTARY

This should be [viewed](#) by every American citizen before November!

In closing, [enjoy](#).

That is it for now. Take care, stay safe and keep thinking positive.

Until next time, Sayonara from Kobe, Japan!
